

February 5, 2007

Dear Certificant,

In an effort to keep the EEG and general biofeedback exams up-to-date, the BCIA exam committee has been developing new test items. We want to invite you to help us validate these new items at the AAPB conference in Monterey.

To accommodate your busy convention schedules, we have arranged space at the BCIA booth for you to complete a 30-minute test any time between 8 am – 5 pm on Thursday through Saturday. As our thank you, we will pay you \$30 for your effort.

If you are dual certified, we will happily pay you \$60 for taking both validation exams. Since our first priority is to validate the EEG items, please ask to take the EEG test first. We want your input on these new exam items, so you can write comments and suggestions on the exam form, or you can communicate directly with Randy Neblett, Fred Shaffer, or Judy Crawford.

Thanks for your help, and see you in Monterey!

The BCIA Exam Committee

More than qualified – BCIA Certified!
