Registered Nurse - Biofeedback

Colon and Rectal Surgery Associates, Ltd. seeks a full time Registered Nurse to specialize in Biofeedback Therapy at our Edina location.

We offer a multi-disciplinary approach to patient care and the diagnosis of pelvic floor disorders. We are proud to have leading specialists in the areas of colon and rectal surgery, urogynecology, and biofeedback on staff. We can offer advanced treatment options and an individualized, comprehensive treatment approach to every person we see.

The Registered Nurse - Biofeedback provides pelvic floor muscle retraining for patients with conditions such as fecal incontinence, constipation and pelvic pain. Collaboratively work with patients to enhance their health, lifestyle and well-being. Previous Biofeedback experience preferred but not required, we will provide biofeedback training as needed.

This full time, benefits eligible position will provide patient care in our clinics within the metro area, primarily in Edina. Hours are daytime, Monday – Friday with no weekend or call responsibilities. Hours range from 7:30 a.m. – 5:30 p.m. with the most typical work schedule being 8:30 a.m. – 5:00 p.m.

Requirements include but not limited to:

- Graduate of an accredited school of nursing
- Current Registered Nurse license within the State of Minnesota
- Minimum of 1 - 2 years patient care experience in a clinic/hospital setting. Nursing experience in Colorectal, OB/GYN, GI or Urology a plus.
- Experience working with pelvic pain patients a plus.
- Requires willingness to learn about pelvic floor testing
- Proven patient education skills and interest in working one-on-one with patients to gain positive outcomes.
- Ability to effectively establish rapport and provide clinical treatment to patients of all ages and genders.
- Requires excellent patient communication and teamwork skills to work as part of a multi-specialty team.
- Strong computer and documentation skills. Experience with the NextGen Electronic Health Record or Practice Management system a plus.
- Demonstrated desire and ability to work independently and take initiative.
- Demonstrated ability to counsel patients regarding nutrition, relaxation strategies, proper pelvic floor exercise techniques and other lifestyle factors
- Maintain CPR Certification
- Must have clear understanding of HIPAA standards and patient confidentiality.
- This position requires minimal travel between clinic sites. Candidates must have valid Driver’s license and ability to travel between locations in a reliable and efficient manner.
- BCIA certification a plus. If not certified, must be willing to obtain Biofeedback Certification.
- Willing to train a qualified candidate
- Must have superior communication and documentation skills.

While performing the duties of this job, the employee is frequently required to do the following physical / mental tasks (not an all-inclusive list):

- Sit or stand for prolonged periods.
- Ability to bend, stoop, reach, and walk (including walking quickly when necessary).
- Assist in the safe transfer of up to 50 pounds.
Understand and respond to a diverse population.
Perform repetitive motion activities including computer keyboard and mouse.
Utilize visual, auditory, verbal, and olfactory processes required to assess, monitor, and care for patients.
Coordinate multiple tasks simultaneously

About the Pelvic Floor Center

The Pelvic Floor Center, a premier facility in the nation, focuses on the in-depth assessment and treatment of pelvic floor issues. The staff provides accurate assessment and options for proper treatment to over 400 patients a month.

The physicians of Colon and Rectal Surgery Associates established the first anorectal physiology laboratory in the Twin Cities in 1980. In 2000, the Pelvic Floor Center was established as a freestanding clinic. The laboratory and the treatments continued to evolve; recent additions include sophisticated ultrasound technology, expertise in biofeedback and increased participation in clinical trials. The Pelvic Floor Center (PFC) continues to grow and expand its multidisciplinary treatment of pelvic floor problems to provide optimal outcomes for our patients.

About CRSAL

Founded in the Twin Cities in 1963, we are one of the largest privately-owned practices of specialized colon & rectal surgeons in the world. A recognized leader in colon & rectal surgery, we place a high priority on staying at the forefront of advancements in treatment and technology.

"We care for every patient as we would care for ourselves and our family members".
