

Pure Recovery Ca. is seeking a tech/assistant in the neuroscience department. Prefer someone who is motivated to learn new material as presented in order to perform advanced NFB, biofeedback, and neuromodulation technologies. Any level is acceptable as in-house, on the job training and mentoring is available, we will train the right person with one-year commitment. Compensation is commensurate with experience, specific tiered pay scale according to abilities and credentials.

Pure Recovery Ca., located on the beautiful Channel Islands Harbor of Oxnard, Ca., is a holistic, integrative TBI and addictions recovery program, focused on concussed ex professional athletes. There is also a position open in the San Diego area.

RESPONSIBILITIES:

- Assist clients with obtaining information regarding NFB
- Obtain and chart client information following guidelines for data collection.
- Administer routine neurofeedback procedures,
- Clean and sterilize equipment,
- Maintain supplies, and report any equipment abnormalities
- Maintain client records, including but not limited to neurofeedback assessments, treatment goals, number of sessions completed, protocols used, and session events.

QUALIFICATIONS:

- Ability to remain organized, calm and to communicate and consult effectively with clients, families, staff, and other professionals
- Ability to read, analyze, and interpret scientific journals, technical procedures, and governmental regulations
- Working knowledge of PC and basic technical knowledge; enjoy learning new software
- Outgoing and you enjoy talking to people while maintaining client confidentiality and respecting professional boundaries
- Genuine interest in the art and science of brain health, but more importantly a passion to help others
- Good communication skills both verbally and also in providing colleagues with written documentation (Client progress note, session reports etc.)
- Team player and you are aware of your limitations and you are unafraid to ask for help/second opinion; you have excellent interpersonal skills in communicating with a multidisciplinary team
- Self-driven and desire personal and professional growth

Preference given to BCIA certified applicants or applicants who will be certified within the first year of hire.

JOB TYPE: Part-time or Full-time

All applicants will be subject to a full background check including a criminal record check.
