

Neurotherapy Northwest
Spokane Valley, Washington
509-891-5900

Neurotherapy Northwest is looking for passionate, enthusiastic, positive, and motivated child/adolescent and adult psychotherapist/neurotherapy clinicians to join our growing team.

Neurotherapy Northwest is a private practice established in September of 2006 that specializes in biofeedback, neurofeedback, EMDR, and individual/family counseling. Our faith based team strives to uplift our clients in ways they need it most.

Using our integrative neurotherapy services, we successfully treat many common conditions such as concussion/traumatic brain injury, anxiety, post-traumatic stress, developmental trauma, depression, attention deficit/hyperactivity disorder, sleep issues, memory problems, and chronic headaches/migraines, including self-awareness enhancement and the ability to self-regulate. We believe in a multi-dimensional approach to therapy that may include but not limited to the exploration of physiology, cognitions, emotions, behaviors, and spirituality.

The Psychotherapy/Neurotherapy Clinician position involves a variety of responsibilities, with the majority of time spent in direct work with clients. Primary roles/tasks will include:

- Evaluating client's needs through interviews to obtain information concerning medical history or other pertinent information as well as collecting a quantitative EEG or Heart rhythm analysis.
- Working with the client to create an effective treatment plan to address goals using information from the interview and QEEG data.
- Keeping appropriate, timely, and confidential records of client services, including session notes.
- Attending and participating in staff meetings and group collaboration, including continuing education classes by being a participant or leading the discussion.

Requirements:

- Must have a Master's degree in social work, psychology, counseling, or a mental-health related field that is licensable as posted on the BCIA requirements.
- Be licensed or eligible to be licensed in Washington
- Willing to become BCIA certified.

Preference will be given to a BCIA certified professional or one who is willing to complete certification with 6 months.

Please email resume and cover letter to frontoffice@neurotherapynw.com to apply.
