

Just Do It! Take The BCIA Neurofeedback Exam!

From what our colleagues tell us, the exam is often the one requirement that is the most difficult to complete and for many reasons, including the availability of a local proctor or the discomfort in not knowing how exam questions are structured.

We are pleased to let you know that we have made great strides to remove a few of the roadblocks!

Practice Exams - we now have a 20-item practice exam that may be accessed using this [link](#).

Read the question and select the best answer. At the end, you hit the "Done" button as instructed, and you will see what questions you answered correctly and what you missed.

Online Proctoring - We have successfully used a new online proctoring service that will allow you to schedule your online exam at any time that is convenient. You may even take it on your own computer, either at work or at home. The service uses cameras to detect any test irregularities such as speaking to another person, accessing books or notes, or even pulling up a new web browser to search for an answer. It is just as if you were in a live testing room with a proctor watching you.

- **Fees**- It will cost an additional \$20 and to help you offset that extra fee, we have lowered our special exam fee for online exams to \$25 instead of \$50.

When you are ready for the exam, please submit the [special exam form](#). Please allow staff at least 7 days to make arrangements for your exam. Check the box that indicates you will be using the online proctor.

ExamRoom.AI

amanda@examroom.ai

Please be sure to have a signed application on file with all fees paid prior to considering the exam. As always, please contact us at info@bcia.org with any questions you may have.

3 Easy Steps:

1. Make sure all fees (filing + certification + special exam fees) are paid to BCIA.
2. Pick a date and submit the special exam form to BCIA.
3. Contact ExamRoom.AI to register with them paying their \$20 fee.
