NEUROFEEDBACK CLINICIAN WANTED
PhD OR MASTERS

Opportunity for neurofeedback/counseling position in a well-established successful and growing clinical practice in Bucks County, PA specializing in neurofeedback, biofeedback and cognitive therapy

Our focus is on providing comprehensive noninvasive research-based solutions for people experiencing a broad range of issues including anxiety, depression, trauma, ADD& ADHD, brain injury, Autism, RAD, learning disabilities, bipolar disorder. We serve a population ranging from early childhood, through senior citizens.

Our office is located in beautiful Bucks County, Pennsylvania which is near many cultural and historic sites, bucolic farm lands and the bustling cities of New York and Philadelphia.

Qualifications: We are offering an opportunity for a highly motivated licensed professional in psychology, neuropsychology and counseling related fields. Professional requirements include interest, knowledge and training in neurofeedback in a clinical setting. BCIA certification and a background in EEG and neurofeedback is preferable. Clinician will be responsible for learning and administering individualized neurofeedback treatment plans, maintaining neurofeedback and counseling progress notes and attending regular clinical staff meetings. We are willing to provide ongoing training.

Candidates should know or be willing to learn how to evaluate progress and change treatment plans, administer QEEGs and share in relevant administrative responsibilities in serving client’s needs. Preference will be given to individuals having an interest in sharing a leadership position with the ambition of providing unparalleled service in a successful and expanding neurofeedback and counseling practice. A valid BCIA (BCN) certification in neurofeedback is required but not necessary if the individual is willing to work for the certification within one year. Mentoring will be provided to support the certification requirements.

Position will be contractual with hours determined by caseload and commensurate with experience, licensing and training.

Interested candidates are invited to submit a cover letter to the above email address describing interest and fit for this opportunity along with a CV or resume.
